2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

The community of Woodland Park Middle School believes middle school is an extremely important time for the social-emotional and academic development of students. It's essential that, as a school, we provide a nurturing environment where students feel safe and supported. To achieve this, we feel that schools and parents should work together to provide students the skills necessary to be successful in high school and beyond. The Woodland Park staff is excited for a our vision for student learning: "WPMS is committed to building a community cultivating leadership, compassion, and perseverance. We believe all students are scholars who will meet or exceed grade-level proficiencies- prepared for high school and beyond."

2024-25 School Description and Mission Statement

"All students will meet or exceed grade-level proficiencies"- This is the foundation for everything that we do as a school. This galvanizes our commitment to prepare every student for high school and beyond by propelling them towards or beyond grade level expectations. Students all come to school at different proficiency levels and unique skill sets. Here at WPMS we commit to setting up every student for success.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Reading and Writing: Language Arts classes embody a rich blend of literature and informational text in which students are challenged to build their reading, writing, listening, and speaking skills. The curriculum is based on the California Common Core Standards for English Language Arts and Literacy in History/Social Studies and Technical Subjects (2010), which outlines a progression of expectations for what students should know and can do. Instruction guides students in comprehending text to determine central ideas and arguments and the craft and structure within the text. Students collaborate and share their ideas in conversation and through writing. As students experience increasingly complex texts, they build their college and career readiness capacity.

Math: Students experience mathematics linked across grade levels and aligned to the State’s content standards and framework finalized in 2013. Students develop foundational conceptual understanding along with procedural skills and fluency as they apply mathematics to solve real world inspired problems. Mathematics takes on greater relevance as students learn to think through their problem solving, share their thinking, and examine the thinking of others. A sequence of courses beginning in 6th grade offers students an opportunity to stretch their mathematical skills through high school.

Science: SMUSD has transitioned to the Next Generation Science Standards for California Public Schools adopted in September 2013, and continues to incorporate the California Common Core State Standards in Literacy for Sciences that focus heavily on aspects of reading, writing, and research. SMUSD has adopted the preferred integrated model for grades six through eight, using a phenomena-based approach to instruction. In grade six, the guiding concept from the California Science Framework is that “systems within organisms and between them are adapted to Earth’s climate systems.” Students focus on the interaction between living systems and their physical environment and use physical science to explain processes within each of these systems. The guiding concept in grade seven builds on students’ understanding of systems from grade six: “Natural processes and human activities cause energy to flow and matter to cycle through Earth’s systems.” Students track the cycling of matter and energy in chemical systems, food webs, the water cycle, and the rock cycle. Near the end of the year, students examine how human activities alter these systems. Integrated grade eight builds on the ideas of stability and change introduced at the end of grade seven with the guiding concept: “The processes that change Earth’s systems at different spatial scales today also caused changes in the past.” Students explain different episodes of mass extinction and species diversification during the first three instructional segments and then move to present-day changes at the end of the year. The course begins with students analyzing data about the diversity of species over the last 500 million years, which reveals evidence of several mass extinction events.

Social Studies: Students build their understanding of the human story through historical analysis, focusing on geography and historical interpretation. Students in grade six expand their understanding of history by studying the people and events that ushered in the dawn of the major Western and non-Western ancient civilizations. Students in grade seven study the social, cultural, and technological changes that occurred in Europe, Africa, and Asia in the years A.D. 500–1789. Students in grade eight study the ideas, issues, and events from the framing of the Constitution up to World War I, emphasizing America’s role in the war. SMUSD teachers are incorporating the California History Social Studies Framework adopted in 2016 and the California Common Core State Standards in Literacy for History/Social Sciences that focus heavily on aspects of reading, writing, and research.

School Facility Conditions and Planned Improvements

School Facility Conditions and Planned Improvements

Woodland Park Middle School opened its doors in 1997. The campus has state-of-the-art facilities for its approximately 1,230 students including 13 buildings, 57 classrooms (including nine relocatable), a multipurpose room, a library, a gym, a fitness center and an administration building. Recently, the front office area, band room, and Performing Arts Center (PAC) have been updated and remodeled. In 2014 we added additional shade structures in our outdoor eating area.

Cleaning Process and Schedule

The district governing board has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office and at the district office. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Maintenance and Repair

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

2024-25 School Safety Plan

Woodland Park Middle School's goal is to be proactive in approaching safety issues for all students and staff. The WPMS Comprehensive School Safety Plan is produced by the administration and revised annually to ensure it contains updated data and information. The administration works with the faculty, district office, and School Site Council to review, update, and implement the School Safety Plan each Fall. In 2022, it was approved by the School Site Council on October 18th, 2023.

The Comprehensive School Safety Plan addresses essential components:

- Safety and emergency procedures and routines
- Rules and policies on school discipline
- Attendance and achievement data
- Guidelines for the roles and responsibilities of school personnel

Professional Development

San Marcos Unified School District (SMUSD) is committed to the belief that the strongest predictor of student achievement is the quality of the teacher inside the classroom. In support of this belief, SMUSD is deeply committed to teacher learning and professional development as evidenced by our district mission statement.

San Marcos Unified School District's Mission Statement includes these commitments:

- "Hiring and retaining only the best educators and investing in their success."
- "Providing quality education based on high standards, effective practices, continuous improvement, and innovation."

Every new teacher in our district engages in a rigorous two year training program where the new employee receives 30 hours of professional development on our research-based instructional framework, the Essential Elements of Instruction (EEI). These instructional strategies apply to any curricular area and any grade level. New administrators to the District receive professional learning in this instructional framework as well as the National Institute for Instructional Leadership (NISL).

In the 2024-2025 school year, at the secondary level, the district focused professional learning on the continued implementation of state academic standards in English language arts, English development, mathematics, science, and history. Attention was placed on identifying key learnings and integrating common formative assessments in English language arts and math within the instructional cycle. Math teachers were provided the opportunity to engage in Standards for Mathematical Practices. Science teachers were given time to delve deeply into NGSS, aligning and/or creating course outlines and units to the requirements of the new standards.

Various means of professional learning were offered: professional development during the regular workday, school breaks, and after school, and online sessions available for staff to access during times that best work with their schedule. Principals provided staff development during regularly scheduled staff meetings throughout the year. Teachers who work with students with special needs engaged in ongoing collaboration to implement more inclusive delivery models.

Teachers continued to engage in professional development each week as they worked collaboratively during their structured teacher collaboration time (early release Wednesdays for elementary/middle school staff and late start Tuesdays for high school staff). This provided teachers the opportunity to share best practices to meet students' needs.

This table displays the number of school days dedicated to staff development and continuous improvement.
